\*Computer Science

### 1 YEAR EXPERIENCE AT SIEMENS TECHNOLOGY

- **Rewards & Recognition Tool (HTML5/CSS/AngularJS/TypeScript/Angular Material/C#)** : This tool was developed for Rewards and Recognition to employee, "The important of Praise".

Employee achievements and/or performance improvement is a vital part of performance management. Sincere and honest praise lets employees know that you appreciate their efforts. This simple act takes little time but will provide many benefits.

This tool was developed to make hassle free process for rewards & recognition in such a big company with layered architecture.

- **Document Gallery (HTML5/CSS/AngularJS/TypeScript):** It's a basic gallery to manage document that can be any type like doc, txt, pdf, ppt, excel or image file. We used bootstrap to make it responsive to any size of screen and designed with rich UI Material Design. It has some interesting features also like versioning the files and search inside the folder.

## 6 MONTHS INTERNSHIP AT NAVRITY TECHNOLOGY

- **Virtual Classroom (Flex/ActionScript/php):** It was a live project in which we had three module- Admin, Instructor and Participant. In this virtual room Instructor creates a session which verified by admin and can be attended by participant. It has the VOD also.

## PROJECT WORK / TRAINING

- **Calendar Application (C++):** This project is used to get any date and day of any year, and user can create Note and reminders, it uses many windows properties to make it colorful and Implemented by Object Oriented Programming.
- **E-Learning of Mathematics (Java) [Group Project]:** Mathematics is the tool especially suited for dealing with abstract concepts of any kind and there is no limit to its power in this field. Here user can learn Mathematics Divided into different category, and implemented by using java applet and servlet.

## AREAS OF INTERESTS

- Data Structures and Algorithms.
- Object Oriented Programming Concepts.
- Web Design and Development
